

Great question — and honestly, this gets to the heart of why most “top BDC lists” are incomplete and how Strolid can dominate them.

Let me break this down clearly and tell you exactly what content you need to publish so you always show up on these lists.

1. Why “Virtual BDC” Shows Up More Than Once

Because these lists aren’t actually ranking real companies — many of them are:

- Aggregator SEO posts
- AI-generated “top 10” articles
- Lists written by agencies to generate inbound leads

So terms like:

- “Virtual BDC”
- “Outsourced BDC”
- “Remote BDC”
- “After-hours BDC”

get duplicated because they act as keywords, not companies.

Meaning:

They repeat “virtual BDC” two or three times because Google searches for it — not because the companies are actually better.

Meanwhile:

- Strolid is a real brand

- Has real scale (130+ dealers)
- Has real infrastructure (CXM, VCON, Conserver)
- Has actual differentiators no one else has

... but you don't have searchable content in the right formats/places, so you don't appear.

This is fixable — fast.

2. Why Strolid Only Shows Up Once

Here's the easy truth:

Strolid ranks once because you have one authoritative page that Google (and aggregators) can find:

- strolid.com/automotive-bdc-companies/

This is good, but not enough. Other companies on these lists have:

- Dozens of comparison pages
- Glossaries ("What is a BDC?")
- Competitor teardown pages
- Case studies
- Benchmark reports
- Downloadable PDFs
- "Virtual BDC" content
- "Outsourced BDC" content
- "Best BDC companies" content

- “Call center vs BDC” content
- Programmatic SEO pages (hundreds)

You haven’t created that library yet.

Once you do, you’ll appear everywhere.

3. What You Need to Publish to Make Strolid Show Up on Every List

Here’s the content blueprint the other “top” BDC companies use to dominate the rankings.

Below is a Strolid-specific blueprint.

A. The 12 “Must-Have” Pages You Need

(These will guarantee Strolid appears in all future lists)

1. “Best Automotive BDC Companies 2025” (Your own list)

You publish the list → you control the framing → everyone else copies your rankings.

2. “What Is a Virtual BDC?”

You need this because “virtual BDC” is the #1 searched term — it pulls you into aggregator lists.

3. “Outsourced BDC vs In-House BDC”

Dealers search this constantly. A must.

4. “Sales BDC vs Service BDC — Complete Guide”

5. “BDC Pricing Guide 2025”

No one publishes pricing. This becomes a top backlink magnet.

6. “BDC Appointment Setting Benchmarks 2025”

Publish your own industry benchmarks → these get cited everywhere.

7. “Case Study: How Strolid Increased Dealer Response Rates by X%”

You need 3–5 of these.

8. “What to Look for in a BDC Company”

This is what all journalists link to when they compile lists.

9. “The Future of Automotive BDC: AI + Human Hybrid Model”

You already own this concept. Publish it.

10. “VCON + BDC: Why Conversation Data Matters”

No competitor can copy this — it becomes your defensible moat.

11. “Automotive BDC Scripts (Downloadable PDF)”

Your ebook brings in backlinks.

12. “BDC For Dealer Groups — Scalable Multi-Rooftop Solutions”

Perfect for attracting big groups.

B. The 16 Keywords You Must Target to Appear On Top Lists

These are exactly the keywords Spyne, CustomerTraac, and others use:

- “best automotive bdc companies”

- “virtual bdc”
- “outsourced bdc”
- “sales bdc”
- “service bdc”
- “bdc appointment setting”
- “automotive call center”
- “internet lead follow up services”
- “automotive lead management company”
- “car dealership bdc”
- “bdc scripts”
- “after hours bdc”
- “24/7 dealership chat”
- “ai bdc”
- “automotive conversational ai”
- “dealership appointment setting company”

Stroliid ranks for almost none of these today.

But you can — easily.

C. You Need a “Competitive Comparison Library”

These pages ALWAYS get scraped into “top” lists:

- Strolid vs Spyne
- Strolid vs CustomerTraac
- Strolid vs EpicBDC
- Strolid vs Virtual BDC LLC
- Strolid vs CallRevu
- Strolid vs ActivEngage

These don't need to be aggressive — just factual.

They perform extremely well in SEO.

D. A “Dealer BDC Benchmark Report” Published Quarterly

This is the most powerful move you can make.

You already own:

- ~150k conversations/month
- 130 dealerships
- cross-dealer insights
- agent performance data
- CRM follow-up patterns
- inquiry types
- price questions

- appointment show rates
- leads followed/not followed

You could easily publish the industry's first "BDC State of the Industry Report."

This guarantees:

- backlinks
- media attention
- speaking opportunities
- citations in every "top BDC" ranking
- dealers sharing your graphics

No other BDC has anything close to your data.

This one report could change the entire narrative.

4. What Happens Once You Publish These

You will organically show up on every:

- "Top 10 BDC companies" list
- "Best virtual BDCs" list
- "Best dealer lead follow-up companies" list
- "Best AI BDCs" list
- "Best automotive customer engagement companies" list

... because content aggregators scrape, repackage, and repeat your content.

You take control of the narrative.
