# The Problem with Traditional BDCs

## What Dealerships Need

- Instant response to every inquiry
- Intelligent, personalized follow-up
- Communication that never slips
- Visibility into every conversation
- Consistency across all channels

## What Traditional BDCs Deliver

- Delayed responses during peak times
- Manual follow-up processes
- Missed opportunities in the gaps
- Limited conversation intelligence
- Fragmented customer touchpoints

Traditional Sales & Service BDCs often fall short of modern customer expectations for immediate and seamless communication.

# The Strolid Evolution

## Traditional BDC

Answer calls, work leads, set appointments

## AI Point Solutions

Automated responses, limited intelligence

## Strolid AI Co-Pilot

Human expertise + AI intelligence working as one

**Strolid has evolved from a managed Sales & Service BDC into your dealership's complete AI co-pilot — blending trained human specialists with AI built on *your* domain data and unified conversation intelligence that ensures no customer gets ignored and no opportunity gets lost.**

# The Power of Unified Conversations

## Searchable History

Indexed, real-time access

## Clean Summaries

Automated CRM notes

## Hot Alerts

Instant notifications

## Smart Routing

Instant lead assignment

# AI Built from Your Domain Data

Unlike generic AI, Strolid's AI is trained on your specific dealership data, learning from actual conversations. This delivers more accurate responses and better lead qualification, automatically identifying complaints, price shoppers, OTD requests, and trade objections to help your team close more deals.

- Automotive-specific AI training for sales & service
- Learns unique dealership patterns
- Continuously improves with conversations

# Meet Sophia: AI Where It Helps

## Sophia Outbound Lead Recovery

Automatically calls unengaged leads and intelligently hands off to a human anytime the customer asks or the situation requires it. Forgotten leads become real appointments without overwhelming your team.

- Natural conversation flow
- Seamless human handoff
- Recovers cold leads automatically

## Sophia Inbound Service Scheduler

Answers service calls instantly, books appointments through your existing tools, and escalates to a live person when needed. No more missed calls, no more appointment delays.

- 24/7 availability
- Direct system integration
- Smart escalation protocols

**AI can answer questions. Humans make the promise. Strolid gives you both — in one co-pilot.**

# Dealer Brain: Intelligence You've Never Had

## Strolid GPT / MRI

Every conversation becomes searchable, revealing patterns and missed opportunities for unparalleled team clarity.

### Universal Search

Instantly find any conversation, topic, or customer concern.

### Pattern Recognition

Identify trends in objections, pricing, and buying signals.

### Proactive Alerts

Get notified about high-value opportunities or urgent issues.

Your CRM tracks what happened; Dealer Brain reveals *why* and what's next.

# Why Dealers Choose Strolid

## Faster Response

Instant customer engagement

## Unified Communication

One intelligent system

## Real-Time Alerts

Never miss opportunities

## Appointment Lift

Increase show rates

## Deep Insights

Beyond CRM visibility

## Trusted Partner

Reliable follow-up at scale

## The Results: Clarity and Consistency

**100%**

### Call Capture Rate

Every customer interaction  
recorded and analyzed

**3x**

### Faster Response

AI-powered routing cuts  
response time dramatically

**24/7**

### Always Available

Customers get answers  
whenever they need them

**Zero**

### Missed Opportunities

Hot alerts ensure your team  
acts on every chance

Strolid provides dealers with unprecedented clarity and consistency in every customer interaction.

"With Strolid, we finally have complete visibility into our customer journey."
