

## One Conversation Engine for Sales + Service

---

People + Process + Platform (powered by AI)

## Leads don't fail. Follow-up fails.

- Customers reach out across call, text, email, and chat — conversations get fragmented.
- Inconsistent response and follow-up drives lost appointments and lost ROs.
- Incomplete CRM notes make it hard to coach or trust the pipeline.
- Leaders lack visibility into why customers didn't convert — and what to fix.

**Missed calls after hours**

**Slow internet lead response**

**No manager-ready TO**

**No coaching signal**

# We deliver outcomes with People + Process + Platform

### People

- Trained Sales BDC + Service BDC coverage
- Manager-ready TOs and follow-up
- Quality assurance and coaching support

### Process

- Closed-loop selling and recovery cadences
- Consistent scripts, standards, and escalation paths
- Daily activity + weekly improvement rhythm

### AI- Platform

- Portal scoreboard and accountability
- Strolid GPT + Conversation Search + Signals
- AI Agents: Service (Sophia) + Sales Revival
- AI- Co-pilot for your website- staff and Strolid

# Lifecycle

Our BDC strategy compliments the specific needs and structure of your dealership. We tailor the needs based on the capabilities of the store.

Agent: Alan Horsfall  
Duration: 00:51  
In this call, Alan Horsfall from a Chevrolet dealership is reaching out to a customer named Brianna regarding her inquiries about a 2026 Red Chevrolet Trax LT. The purpose of the call is to confirm Brianna's appointment scheduled for 2 PM that day and to offer assistance with any questions she may have before her visit. Alan provides his contact information and mentions that she can ask for the sales manager, Edwin Espinosa, upon arrival.

## Ask a question → get a work list your team can execute.

- Example: “List customers who said the vehicle was priced too high.”
- Returns contact details + conversation summary + one-click link to the thread.
- Built for managers: spot objections, route follow-up, and coach consistently.

The screenshot displays the Strolid Portal interface. On the left is a sidebar with navigation options: Sales Department, Service Department, Outbound Campaigns, NADA, Conversation Search, and Strolid GPT (highlighted). The main area features a header with the Strolid logo, 'Demo Mode' status, and a user profile icon. Below the header is a search bar with the text 'Show me customers who are...'. The central part of the interface is a grid of 15 dark blue cards, each representing a customer sentiment or action item. Each card has a small icon and a yellow information icon in the top right corner. The cards are arranged in three rows of five. A search bar at the bottom of the grid contains the text 'Ask me anything' and a submit button. A feedback button is located on the right side of the grid. A disclaimer at the bottom of the grid states: 'Strolid GPT can make mistakes. Check important info.'

Ask me anything

Strolid GPT can make mistakes. Check important info.

Feedback

## One-click segments that map to real dealership plays.

- Priced too high, still shopping, payment/credit concerns, shopping competitors.
- VIP follow-up and long-term nurture queues.
- Standardizes follow-up across stores and managers.

The screenshot displays the Strolid Portal interface. On the left is a sidebar with navigation options: Sales Department, Service Department, Outbound Campaigns, NADA, Conversation Search, and Strolid GPT (highlighted in yellow). The main area shows a chat window with a header 'List customers who mentioned the vehicle was priced too high.' and a Strolid GPT message from 10:34 am. The message content lists customer John Smith with contact details and a summary of his concerns about vehicle pricing. At the bottom, there is a 'New Chat' button, a text input field 'Ask me anything', and a disclaimer: 'Strolid GPT can make mistakes. Check important info.'

List customers who mentioned the vehicle was priced too high.

**Strolid GPT** 10:34 am

Here are customers who mentioned the vehicle was priced too high:

**John Smith**  
Phone: (555) 343-5582  
Email: [john.smith@example.com](mailto:john.smith@example.com)  
Summary: John discussed a Chrysler Voyager LX and said the quoted monthly payment of \$599 was too high, wanting something between \$300–\$400 instead. He compared this to other vehicle quotes he received, stating he'd need a much lower monthly cost to consider a purchase. The agent offered to review options and suggested a possible adjustment based on a higher down payment, but John remained firm about his budget.

Feedback

## Revive the leads you already paid for — with instant human handoff.

- Outbound only for customer-initiated inquiries (web lead, call, chat, form).
- Sophia (AI) can call thousands of leads, leave VM and capture customer dispositions when we are engaged.
- Handoff to us when your staff stops trying
- If answered: warm transfer to a live agent immediately.
- If not answered: branded voicemail + smart cadence + optional SMS/email touches.
- Detects intent (priced too high / still shopping / credit concern) and routes a play.
- Logs every attempt + creates a CRM-ready summary and next action.
- **See 16% engagement, 15% appointments. 1000 good customer files =160 engagements and 24 more appointments**

### Example cadence

**Day 3** Call + SMS follow-up

**Day 4** Call + email touch

**Day 5** Call + voicemail drop

**Day 7** Call + “still shopping?”

**Day 10** Final attempts + long-term nurture

Exec-friendly insights: what changed, why it matters, what to do next.

- Tracks volume, mix, appointment rate, show rate, and close rate.
- Highlights risk and opportunity (e.g., third-party dependency).
- Turns performance into clear, plain-English narratives for leaders.

Lead Intelligence Report

Key insights and narratives from your dealership data

Key Insights & Narratives

## Compare stores by what customers actually say — not just lead counts.

- Track satisfaction, price concerns, upset customers, and key customer segments.
- “Your dealership vs Strolid average” reveals where to coach and where to scale.
- Data validation in progress to ensure accuracy prior to release.

## Website assistant for inventory, payments, trade-ins, and appointment capture.

- Designed to reduce friction and capture intent cleanly.
- Currently deprioritized while we ship Sophia (Service) and Sales Revival (Outbound).

The screenshot shows the AutoPro Dealership website with a light blue header and a white main content area. The header features the "AutoPro Dealership" logo. The main content area has a large heading "Find Your Perfect Vehicle" with a subtext "Premium selection of new and pre-owned vehicles with exceptional service and competitive financing". Below this are three service boxes: "Top-Rated Service" (award-winning customer service with 5-star reviews), "Certified Quality" (all vehicles undergo rigorous 150-point inspection), and "Best Trade-In" (get top dollar for your trade-in). At the bottom, a blue banner reads "Questions? Our Smart Assistant is Here to Help" with a subtext "Get instant answers about inventory, payments, trade-ins, and more. Click the assistant button in the bottom right!".

The Automotive Co-Pilot widget is overlaid on the right side of the page. It has a blue header with the text "Automotive Co-Pilot" and "Ask me anything!". The main content area of the widget includes a greeting "I'm here to help!" with a subtext "Ask me anything about our vehicles, pricing, financing, or schedule a visit. I can help with multiple questions at once.". Below this is a section "TOPICS I CAN HELP WITH" with buttons for "Inventory", "Payments", "Trade-Ins", "Appointments", "Product Info", "Financing", "Service", "Leasing", and "Warranties". There is also a section "TRY ASKING SOMETHING LIKE..." with three example questions: "Show me SUVs under \$40k", "What would my monthly payment be?", and "How much is my 2020 Honda worth?". At the bottom of the widget, a small text reads "Your information is secure and never shared".

# SERVICE BDC

**Strolid manages all your inbound-service appointment traffic calls**

- Leave the appointment-making to us.
- We integrate with Most Service Schedulers and DMS systems.
- We gather all service department info prior to going live for a better customer experience. (Action Item form)
- We establish slack communication with your Service team.
- We provide in-depth reporting on dispositions activates .
- We answer the phones so your advisors can spend quality time with your customers in front of them.

## Never miss a service opportunity — even after hours.

- 24/7 inbound service coverage (calls first; optional SMS follow-up).
- Answers common questions: hours, pricing ranges, loaners, recalls, availability.
- Captures: customer, vehicle, concern, and preferred appointment windows.
- Schedules into your service scheduler or routes to an advisor when needed.
- Creates a clean summary + next step for coaching and follow-up.

**Transparent roadmap keeps expectations clear and builds trust.**
