# Assessment Scorecard

LIGHT MODE

Score each area 0-10. Weighted total = 0-100. Use notes to document vendor answers.

## Scoring (0-10 each)

| Category                                | Weight | Score (0-10) |
|-----------------------------------------|--------|--------------|
| AI authenticity (not just automation)   | 20     | Score: _____ |
| Operational fit (process + people)      | 20     | Score: _____ |
| Resource alignment (time, IT, training) | 15     | Score: _____ |
| Transparency & data control             | 15     | Score: _____ |
| ROI clarity (math, baselines, timeline) | 15     | Score: _____ |
| Risk & exit strategy                    | 10     | Score: _____ |
| Change management reality               | 5      | Score: _____ |

## Total Score (0-100)

**Total:** \_\_\_\_\_

## Decision Guidance

80-100: Proceed with confidence | 60-79: Proceed with guardrails | <60: High risk / hype detected

## Notes (capture the vendor's answers + missing proof)
